---

- Enter into the realm of creativity, improve relationships and experience personal transformation with hands on experience in NLP
- Essential for anyone who is serious in identifying and applying full of his/her potential to achieve success in life

## **What is NLP?**

---

NLP is science of excellence. It offers practical and rapid methods for personal growth. It is the study of how people think, process information and behave. NLP is about using what works and leaving what does not. Today NLP is used extensively in all fields like business, development, education, sports, training, health care and therapy.

NLP is a branch of psychology that help therapists achieve quick and lasting changes in their clients. Today it is being successfully used for personal growth and improvement.

## You Will Learn to

- ➔ Build and maintain rapport – the key for successful relationships with others
- ➔ Gather specific and high quality information from others and use them to achieve your outcomes
- ➔ Increase the range of what you see, hear and feel so you know more about what's going on in other persons mind through observing his eye movements
- ➔ Design strategies and make interventions to move from a present state to a desired state
- ➔ Create the right context for successful individual and organisational change and look for positive ways
- ➔ Talk the other person's language to build better relationship
- ➔ Create your own personal state of excellence
- ➔ Make meetings produce intended results
- ➔ Mediate and negotiate more successfully
- ➔ Recognise and use powerful language patterns
- ➔ Develop your behavioural flexibility and creativity
- ➔ Help yourself and others manage depression, stress and relieve any psychological deficiencies
